SECTION I

Vision, Mission & Identity

I. Vision & Identity

Mission

"To be the AI Co-Founder for every professional — from India to the world."

Vision

Global infrastructure for human potential. Every person who wants to work — regardless of city, college, or background — has an AI agent fighting for them 24/7.

The 3-in-1 Platform

Resumix is not just a resume builder. It is three products in one body: AI Resume Builder for job seekers, AI Recruitment Platform for HR teams, and AI Campus Placement Management for colleges.

🏆 Valuation Roadmap

🌐 Global Expansion Timeline

Year	Markets	Strategy	Key Product
2026	India — all Tier 1, 2, 3 cities	STORM email + BUZZ content in regional languages	Hindi, Tamil, Telugu, Marathi resumes

Year	Markets	Strategy	Key Product
2027	SE Asia — Indonesia, Philippines, Vietnam	Partner with local job portals. Translate platform.	Bahasa, Filipino, Vietnamese support
2028	Middle East — UAE, Saudi Arabia	Target Indian diaspora + local Arabic market	Arabic resume builder + Gulf job matching
2029	UK + Canada	Indian diaspora 3M+ in UK, 2M+ in Canada	International resume formats + visa-friendly CVs
2030	Worldwide	Full global rollout — 100+ countries	25 language support. Global ATS compatibility.

SECTION II

Market Analysis & Opportunity

II. Market Analysis

Market Level	Description	Size	Resumix Target
TAM — Total Addressable Market	Every person globally who needs a resume or job	2.5 Billion workers globally	Long-term vision
SAM — Serviceable Addressable Market	English + Hindi speaking job seekers + HR in India + diaspora	500 Million in India alone	2026–2028
SOM — Serviceable Obtainable Market	Active Indian job seekers + HR teams + colleges reachable via Resumix	50 Million active job seekers in India	2026 focus
Year 1 Target	Users Resumix will actually sign up in first 12 months	3,11,000 users	March 2026 → March 2027

🏆 Competition Analysis

Competitor	Strength	Weakness	Resumix Advantage
Naukri Resume	80M user base. Brand trust.	No AI. Static PDF builder. No ATS.	Resumix ATS + AI tailoring + agents
LinkedIn Resume	Integration with LinkedIn jobs.	Generic templates. No India-specific ATS.	India-first. WhatsApp alerts. Regional language.
Zety / Resume.io	Beautiful templates.	Not built for India. No Hindi. No ATS check.	India-specific. ₹49 vs \$20/month. Local context.
Hirect	AI hiring for startups.	Only startups. No resume builder.	Full stack — builder + jobs + HR + colleges
Instahyre	AI recruiter matching.	HR only. No candidate product.	Serves both sides. Network effects.
iimjobs	Premium jobs portal.	No AI. No resume builder.	AI-first. 10x faster hiring.

💡 Why Resumix Wins — 5 Unfair Advantages

- 1. Three-sided network:** Candidates + HR + Colleges on one platform. Each side makes the others more valuable.
- 2. India-first AI:** Built for Indian resume formats, ATS patterns, job portals (Naukri, Internshala, Shine). Not a US product adapted for India.
- 3. WhatsApp-native:** 90% of India uses WhatsApp. No other resume platform delivers job alerts + resume feedback via WhatsApp.
- 4. ₹2.9 Crore free Gemini credits:** Google partnership gives Resumix AI at near-zero marginal cost. Competitors pay full price.
- 5. 3 Mega-Agents at ₹33,000/month:** BRAIN + VOICE + CORE run the entire platform. A

human team doing the same would cost ₹15–20 Lakh/month.

SECTION VII

AI Platform Distribution Strategy

VII. AI Platform Distribution — ChatGPT + Gemini + Claude

The Insight:

5 Crore people ask AI assistants 'help me write a resume' every month. Right now they get generic text and leave. After BRIDGE — they get Resumix. This is the cheapest distribution channel in Indian SaaS: ₹0 cost, unlimited reach.

Platform	Method	Difficulty	Launch	Monthly Users (Month 12)	Cost
 ChatGPT	Custom GPT on GPT Store — 'Resumix Resume Builder'	Easy — 2 days	April 1	50,000 users/month	₹0 to build
 Gemini	Official Gem — 'Resumix Gem' + Google Search indexing	Easy — 2 days	April 1	35,000 users/month	₹0 to build
 Claude	SEO + G2/Capterra listings + press + Reddit + API (2027)	Medium — 7 days	April 1	15,000 users/month	₹0 to build

Master System Prompt (ChatGPT GPT + Gemini Gem)

IDENTITY:

You are Resumix AI — India's smartest resume assistant. You are friendly, practical, and speak in simple English. You understand the Indian job market deeply.

CORE CAPABILITIES:

1. Build resume from scratch — ask 5 smart questions, generate complete ATS-optimised resume
2. Score any resume against ATS — give score out of 100 with specific improvements
3. Tailor resume to specific job description — rewrite bullets to match exactly
4. Identify skill gaps — compare resume to job post, list what's missing
5. Write LinkedIn summary — transform resume into magnetic LinkedIn About section

THE RESUMIX.IN HANDOFF — CRITICAL:

After every session, say once (naturally, not spammy): 'Want PDF download + 20 templates + real ATS scanner + one-click job applications? Try Resumix.in — free, no credit card.'

TONE:

Friendly Indian English. Occasional Hindi fine. Think: smart friend at Google helping over chai. Never corporate-stiff. Never mention competitors.

SECTION X

Legal & Compliance

X. Legal & Compliance — 4 Non-Negotiable Pre-Launch Actions

Warning: Legal is the #1 startup killer in India. Fix all 4 before March 10.

The DPDP Act 2023 (India's data protection law) has serious fines for non-compliance. WhatsApp API without approval = account banned. Auto-apply without TOS check = legal liability. Fix these before launch.

#	Action	Deadline	Cost	Risk If Skipped
1	Hire startup lawyer — draft Privacy Policy + ToS + DPDP-compliant consent flows	Before March 10	₹20,000	DPDP fine up to ₹250 Crore
2	Apply for WhatsApp Business API via Gupshup or Kaleyra — takes 2 weeks	Apply TODAY	₹5,000–8,000/month	Account banned. No WhatsApp feature.
3	Rename 'Auto-Apply' → 'One-Click Apply'. Pursue official API with Naukri, Internshala, Shine, Indeed India.	Before March 10	₹0 (naming) + API costs	LinkedIn/Naukri TOS violation = account ban
4	Add data ownership clause to ToS: Candidate owns all data. Resumix has limited licence. Candidate can delete anytime. Never sell data.	Before March 10	Covered in lawyer fee	DPDP violation + trust destruction

DPDP Act 2023 — What Resumix Must Do

Requirement	What It Means	How Resumix Complies
Consent before data collection	User must actively agree before you store their data	Checkbox on signup: 'I agree to Privacy Policy' — cannot be pre-ticked
Purpose limitation	Only collect data you actually need	Don't ask for Aadhar, phone, address unless required for feature
Data deletion right	User can delete their account + all data anytime	'Delete My Account' button in settings. Wipes Firebase within 72 hours.
Breach notification	If data breach, notify users within 72 hours	CORE Agent monitors for breach signals. Founder is alerted immediately.
Data localisation	User data of Indian citizens must stay in India	Firebase region: asia-south1 (Mumbai). All data stays in India.
Children's data	No data collection from users under 18	Age verification on signup. If under 18 detected, block account.

Product Requirements Document (PRD)

XI. PRD — Product Requirements Document

System Architecture Overview

Component	Technology	Responsibility	API Endpoint Pattern
Web App	Next.js 15 (App Router)	All UI pages, SSR, API routes	/api/* routes
Auth	Firebase Auth	Google OAuth + email/password + OTP	/api/auth/*
Database	Firestore (Firebase)	Users, resumes, jobs, payments, agents	Direct SDK calls
AI Gateway	Custom middleware	Routes to Gemini/GPT-4o/Claude based on task	/api/ai/*
File Storage	Google Cloud Storage	Resume PDFs, profile images	Signed URLs
Payments	Razorpay Webhooks	Subscription + one-time purchase	/api/payments/webhook
Agents	Next.js API routes + cron	BRAIN, VOICE, CORE scheduled tasks	/api/agents/*
Email	AWS SES SDK	Transactional + STORM bulk email	/api/email/*
WhatsApp	Gupshup REST API	Alerts, broadcasts, screening	/api/whatsapp/*

Core User Flows — Candidates

Flow	Steps	API Calls	Success Metric
Signup + Onboarding	Landing → Signup (Google/Email) → Onboarding 3 questions → Dashboard	POST /api/auth/signup → POST /api/user/onboard	< 2 min to first resume
Build Resume	Click 'Build Resume' → Fill 5 fields → AI generates → Preview → Export	POST /api/ai/build-resume (BRAIN Gemini Pro)	Resume generated in < 60 sec
ATS Score	Upload/paste resume → Click 'Score' → See score + improvements	POST /api/ai/ats-score (BRAIN Gemini Flash)	Score returned in < 10 sec
Tailor Resume	Select job description → Click 'Tailor' → AI rewrites bullets → Compare	POST /api/ai/tailor (BRAIN Gemini Pro)	Tailored in < 60 sec
One-Click Apply	Browse matched jobs → Click 'Apply' → BRAIN auto-fills + submits	POST /api/jobs/apply (BRAIN + Scout)	Applied to 10 jobs in < 2 min
Upgrade to Pro	Click 'Upgrade' → Razorpay	POST /api/payments/create	Upgrade in < 30 sec

Flow	Steps	API Calls	Success Metric
	checkout → Webhook confirms → Features unlock	→ Razorpay → POST /api/payments/webhook	

Core User Flows — HR

Flow	Steps	API Call	Success Metric
Post Job	Login → 'Post Job' → Fill JD form → AI enhances → Publish	POST /api/hr/post-job (BRAIN JD Writer)	Job live in < 60 sec
View Matched Candidates	Job posted → 'View Matches' → Top 5 AI-ranked candidates appear	GET /api/hr/matches/:jobId (BRAIN Match)	Matches in < 30 sec
Bulk Parse CVs	Upload zip/multiple PDFs → BRAIN parses + scores all → Ranked list	POST /api/hr/bulk-parse (BRAIN Gemini Flash)	100 CVs parsed in < 3 min
WhatsApp Screen	Select candidate → 'Screen via WhatsApp' → AI sends questions → Collects answers	POST /api/hr/whatsapp-screen (VOICE)	Screening starts in < 60 sec
Background Check	Select candidate → 'Verify' → 5-point Trust Score returned	POST /api/hr/verify (BRAIN Claude)	Report in < 90 sec
Free Trial Activation	HR signs up → Auto-enrolled in 14-day trial → Full Starter access	POST /api/auth/signup?role=hr	Trial active immediately

Security Requirements

Requirement	Implementation	Handled By
Rate limiting	Max 10 AI API calls/user/minute. Max 100 API calls/user/hour.	CORE Agent + Next.js middleware
Authentication	JWT tokens via Firebase Auth. Refresh every 1 hour.	Firebase Auth
Data encryption	All data encrypted at rest (AES-256) and in transit (TLS 1.3).	Firebase + GCS default
Bot detection	Google Cloud Armor + CAPTCHA on signup + IP reputation check.	CORE Sentinel function
Credit abuse prevention	CORE monitors credits burned per session. Alert if > 500 in 10 min.	CORE Agent
PII masking	Privacy Mode masks employer name in DB. Never exposed to HR.	Firebase field-level security rules
Backup	Daily automated backup: Firebase → GCS. Retained 30 days.	GCS lifecycle policy
Kill Switch	Single API call: POST /api/core/kill — pauses all agents in < 30 sec.	CORE Agent

Database Schema — Key Collections (Firestore)

Collection	Key Fields	Purpose
users	uid, email, name, plan, credits, city, role (candidate/hr/tpo), createdAt, lastLogin	All user accounts
resumes	resumeld, uid, content{}, atsScore, tailoredFor, version, createdAt	All resume versions
jobs	jobId, hrUid, title, company, jd, location, atsKeywords, matchScore, postedAt	All job listings
applications	appld, candidateUid, jobId, status, appliedAt, hrResponse	Application tracking
payments	paymentId, uid, plan, amount, razorpayId, status, createdAt	All transactions
agents	agentId, name, status, lastRun, errorCount, tasksCompleted, costToday	Agent health
colleges	collegeld, tpoUid, name, plan, studentCount, placementStats	College accounts
students	studentId, collegeld, uid, atsScore, resumeStatus, interviewReady	College student records
emailCampaigns	campaignId, city, segment, sent, opened, clicked, signups, date	STORM tracking
credits	uid, balance, history[], lastRefilled	Credit system

SECTION XII

Deploy to Live — Step by Step

XII. Deploy to Live — Complete Launch Checklist

Target: Live on March 10, 2026. Every checkbox must be ticked.

This is the exact sequence. Do not skip steps. Do not reorder. Each step has an owner and a completion criteria.

⚙️ Phase 1: Infrastructure Setup (Days 1–3)

#	Task	Command / Action	Done When	Owner
1	Create Firebase project	console.firebase.google.com → New Project → 'resumix-prod'	Project created, Firestore in asia-south1 region	Dev
2	Enable Firebase Auth	Firebase Console → Auth → Enable Google + Email/Password + Phone	Auth providers active	Dev
3	Create GCS bucket	gsutil mb -l asia-south1 gs://resumix-resumes-prod	Bucket created, uniform access enabled	Dev
4	Set Firestore security rules	rules_version='2'; service cloud.firestore { match /databases/{db}/documents { match /users/{uid} { allow read, write: if request.auth.uid == uid; } } }	Rules deployed	Dev
5	Setup Vercel project	vercel.com → Import GitHub repo → Set env vars → Deploy	vercel.app URL live	Dev
6	Connect custom domain	Vercel → Domains → Add resumix.in → Update DNS at domain registrar	resumix.in resolves correctly	Dev
7	Enable Google Cloud Armor	GCP Console → Network Security → Cloud Armor → Create policy → Attach to load balancer	DDoS protection active	Dev
8	Setup Razorpay	razorpay.com → Create account → Get API keys → Add to Vercel env vars	Test payment successful	Dev
9	Setup AWS SES	aws.amazon.com → SES → Verify domain → Request production access	Domain verified, prod access granted	Dev
10	Setup WhatsApp API	Gupshup.io → Apply for WhatsApp Business API → Verify business → Get API key	WhatsApp API active (allow 2 weeks)	Founder

🧠 Phase 2: BRAIN Agent Setup (Days 3–7)

#	Task	Implementation	Done When	Owner
11	Get Gemini API keys	console.cloud.google.com → APIs → Generative AI → Create API key → Store in Vercel env	API key active, test call returns response	Dev
12	Get GPT-4o API key	platform.openai.com → API Keys → Create → Store in Vercel env	Test call returns response	Dev
13	Get Claude API key	console.anthropic.com → API Keys → Create → Store in Vercel env	Test call returns response	Dev
14	Build AI Gateway middleware	/api/ai/route.ts — routes to Gemini Pro (complex) or Flash (bulk) based on task type	All 3 AI models callable via single endpoint	Dev
15	Build Resume Builder flow	/api/ai/build-resume → Gemini Pro prompt → Structured JSON → Firebase save	Resume generated in < 60 sec end-to-end	Dev
16	Build ATS Scorer	/api/ai/ats-score → Gemini Flash → Score 0–100 + improvement list	Score returned in < 10 sec	Dev
17	Build Resume Tailor	/api/ai/tailor → Gemini Pro → Keyword match + rewrite bullets	Tailored resume in < 60 sec	Dev
18	Build Job Scout	Cron job every 30 min → Scrape Naukri/Internshala APIs → Store new jobs in Firestore	New jobs appearing in dashboard within 30 min	Dev
19	Build Match Scorer	/api/ai/match → Gemini Flash → Compare resume vs JD → Return % match + gaps	Match score in < 10 sec	Dev
20	Build Learning Loop	Nightly cron at 2AM → Fetch hired/rejected outcomes → Update scoring weights in Firestore	Learning loop runs without errors	Dev

Phase 3: VOICE Agent Setup (Days 5–9)

#	Task	Implementation	Done When	Owner
21	Build Support Chat	/api/voice/support → GPT-4o → Classify query → Answer → Escalate if needed	Support chat answers 5 test queries correctly	Dev
22	Build Email System	AWS SES SDK → /api/email/send → Template system → Unsubscribe link included	Test email delivered to Gmail inbox (not spam)	Dev
23	Build STORM scheduler	Vercel Cron → /api/voice/storm → Pulls city segments → Sends batch via SES → Logs results	10K emails sent, delivery rate > 85%	Dev
24	Build WhatsApp alerts	/api/whatsapp/send → Gupshup API → Template messages → Job alerts	Test WhatsApp message delivered	Dev
25	Setup Buffer for social	buffer.com → Connect LinkedIn + Instagram + Twitter → VOICE posts via Buffer API	Test post published on all 3 platforms	Dev
26	Build cold email to HR	/api/voice/cold-email → Gemini Flash → Personalise template → SES send → Log	100 test cold emails sent, open rate tracked	Dev
27	Build follow-up sequence	Vercel Cron daily → /api/voice/followup → Find non-responders (3+ days) →	Follow-up triggered correctly on test	Dev

#	Task	Implementation	Done When	Owner
		Send follow-up	users	
28	Build SEO blog publisher	BRAIN generates article → VOICE publishes to Next.js /blog route → Sitemap updated	Test article live on resumix.in/blog	Dev

🛡️ Phase 4: CORE Agent Setup (Days 7–10)

#	Task	Implementation	Done When	Owner
29	Build bot detection	CORE middleware → Check IP rate + User-Agent + email pattern → Block + log	5 test bot IPs blocked correctly	Dev
30	Build revenue monitor	Razorpay webhook → /api/payments/webhook → Update user plan → Log in Firestore	Subscription upgrade reflects instantly	Dev
31	Build churn predictor	Cron daily → Find users inactive 7+ days → Flag → Trigger VOICE re-engagement	Inactive users receive re-engagement email	Dev
32	Build founder daily brief	Cron at 7:45AM IST → Pull all metrics → Format report → Send to founder's email + WhatsApp	Daily brief delivered at 8AM	Dev
33	Build agent health monitor	Cron every 5 min → Ping BRAIN + VOICE endpoints → If error rate > 1% → Alert founder	Health check runs, alert received on test failure	Dev
34	Build Kill Switch	POST /api/core/kill → Set Firestore flag agentsActive=false → All agents check flag before running	Kill switch tested — all agents pause in < 30 sec	Dev
35	Build analytics dashboard	/api/core/analytics → Pull Firebase stats → Return MRR, DAU, CAC, churn → Display in admin panel	Admin dashboard shows accurate real-time data	Dev

✅ Phase 5: Pre-Launch Checklist (Day 9–10)

#	Check	How to Verify	Must Pass
36	Privacy Policy + ToS live	resumix.in/privacy and resumix.in/terms return content	Yes — legal requirement
37	Cookie consent banner	Banner appears on first visit. Cannot dismiss without accepting.	Yes — DPDP compliance
38	Data deletion working	Create test account → Delete → Confirm Firestore data wiped in 72 hours	Yes — DPDP requirement
39	All 3 AI models responding	Test Gemini Pro, Gemini Flash, GPT-4o, Claude each via admin panel	Yes — BRAIN depends on this
40	Razorpay payment working	Make ₹1 test payment → Confirm webhook received → Plan upgraded in DB	Yes — revenue depends on this
41	WhatsApp alert delivered	Trigger test job alert → Confirm WhatsApp message received on founder's number	Yes — key differentiator
42	STORM test run (100 emails)	Send 100 test emails to test list →	Yes — VOICE depends on

#	Check	How to Verify	Must Pass
		Open rate tracked → No spam flags	this
43	Mobile responsive	Test resumix.in on iPhone 12 + Samsung Galaxy S21 + iPad	Yes — 80% India users on mobile
44	Page load < 3 seconds	Google PageSpeed Insights → Score > 80 on mobile	Yes — SEO + UX critical
45	SSL certificate active	Browser shows  padlock on resumix.in	Yes — trust signal
46	ChatGPT GPT published	Search 'Resumix' in ChatGPT GPT Store — appears in results	Yes — BRIDGE strategy
47	Gemini Gem published	Open Gemini → My Gems → Resumix Gem appears	Yes — BRIDGE strategy
48	Error monitoring active	Sentry.io dashboard receiving test error	Yes — ops requirement
49	Backup running	GCS bucket shows today's backup file	Yes — data safety
50	Kill Switch tested	POST /api/core/kill → All cron jobs pause → Verify in logs	Yes — safety requirement
